

RUBIERA KWS

Ultra Early: FAO 160

SEEDING
THE FUTURE
SINCE 1866

The silage athlete!

Characteristics / Quality

- Class leading DM yield – (96%) across all sites
- Rapid early vigour (7.3)
- Semi dry down for low effluent risk
- Full cob sheath coverage
- Excellent starch (35.4%) and ME content (11.50 MJ/Kg)

Data source: NIAB Forage Maize Descriptive List. First choice varieties for less favourable sites (2018)

“ RUBIERA KWS combines high DM yields with excellent ME and starch content owing to its very high grain content in the ear.
